International Science School (Extremely selective)	11-12							2017, 2019					
National Youth Science Forum (Rotary, extremely selective)	12												

Notes: GERRIC is the most suitable program for Year 8. It has multiple small workshops, depending on your particular interest area. Check their website for current topics. Enrolment is via the Sapphire Foundation (entry via scholarship)

Multiple universities run the Science Experience programs, at various times of the year and with different content. Check their websites for the topics.

All Year 10 students attend the Sydney Uni '3 days as a CSI' Science Experience program

Uni of Wollongong Learning Labs have multiple workshops – check the website for details

The Sydney Uni Gifted & Talented Discovery is selective (with an entrance exam in Oct-Nov), broadly similar in content to the Science Experience

The ISS entry is based on Year 10 results and sponsorship by the school Principal & Head of Science. It is possible to win a place.

The NYSF requires sponsorship by a local Rotary Club and involves multiple selection rounds. However one SCAC student has been successful, so...

The CSIRO Science Bootcamps run for 2 days. Check availability though.
